

2018 GateTutor - Executive Summary

It is used to find the right path for our students by providing various kinds of aptitude tests, and technical tests. This technique is useful for those students who are willing to go for higher studies. Students can make groups, and study online 24 x 7 throughout the year. GateTutor solves problems by conducting various tests ranging from first year psychometry test & year wise technical & non-technical tests, so that students & Institute get the clear idea to what exactly the student is expert in & what exactly is the beneficial for the student in his/her career. By this students not only understand about his/her interests/ability/skill, but also get an opportunity through GateTutor to get placed in a blue-chip companies/ MNC'S/ PSU & Government Sector, conducted by the particular concerns.

Test Setting

Faculty can conduct various types of tests for all students by manual or random test settings.

Manual Test Setting – Faculty will select the set of questions for test, means they have to select the Questions of the test manually.

Random Test Setting – Faculty will define only number of Questions and Marks of the test. Then GateTutor application will generate test automatically. In this case, students get different set of Questions for their tests.

Continuous Evaluation

GateTutor can be used for continuous evaluation of the students of 4 years. This provides a monitoring system to the institute. These scientifically designed tests will help students improve their chances to build a better career and provide continuous feedback to the institute.
