3. Action taken on Domain knowledge	The members present expressed their content on the fact that adequate training programs have ben arranged for the students on domain knowledge.	
4. Promotion of the College towards Centre of Excellence	The members discussed that the development of Centre of Excellences (CoEs) is a policy measure, applied in many parts of the world in order to promote a robust research and innovation environment. This is achieved by encouraging institutional profiling and generating a critical mass of researchers. CoE initiatives are a flexible instrument and have been applied in several different ways and for different purposes, such as promoting basic research, innovation, social development and education. Because CoEs are often located in higher education institutions, these initiatives increasingly influence the management of institutions and academic careers. The members decided that once the college gets accredited by NAAC, initiative must be taken by the authority to promote the college as a Centre of Excellence. They further proposed that if the entire college could not be transformed into a CoE, efforts may be exercised to upgrade at least one or two of its department to CoE.	
5. Autonomy of the College	The members suggested that if the college gets accredited by NAAC and the remaining programs by NBA, the college should opt for autonomy.	Decided in Academic committee meeting that College would apply for autonomy on successful completion of accreditation process by NAAC.
