

Reminiscence of Silver jubilee celebration of Netaji Subhash Engineering College

Glorious journey after completion of 25 years in the academic field of technological universe, **NSEC** has established a strong recognition in the field of self financed Engineering Colleges of WB. Students of the institution under different branches of technological world have established the bright career across the globe. As a result they have established and are encouraged to establish their professional career not only in the field of technology even they are rolling their ideas under different innovative interrogations which will provide new rays of light for their own career as well as for the betterment of the country. Presently within this year we have started several new courses in B.Tech & Diploma level that will cater the present day of technological needs.

In fact the motivation of the students during this 25 years of glorious journey has given a new light to the coming generation for getting admission to this college. On the day of 28th of June,2022 Silver Jubilee celebration at Science City was adorned by several Scholars and academicians under the Chairmanship of Prof. Anil D Sahasrabudhe, the former chairman of AICTE who motivated the entire gathering of Scholars under different ages for innovative activities in the new technological field of the world.
