WINTER OF CODE 2024 (WOC 2k24)

We are glad to inform you that program like the previous years the Google Developer Student Club – Netaji Subhash Engineering College (GDSC-NSEC) has organized the **Winter Of Code 2024 (WOC 2k24)**, a two months long. An online flagship workshop will be hosted **on 27th Jan, 2024 from 07:00 PM to 08:30 PM** for WOC 2k24 orientation purpose**.**

The GDSC-NSEC has a unique vision and initiative to launch the WOC 2k24 to foster a collaboration between the aspiring developers and the established open-source organizations. It provides a structured platform for talented individuals to contribute to the real-world projects while gaining valuable hands-on experience.

Winter of Code serves as an excellent stepping stone for the participants aspiring to join the global **Google Summer Of Code (GSOC)** program. Successful completion of Winter of Code projects not only adds to one's portfolio but also demonstrates a commitment to open-source development, enhancing the chances of being selected for the prestigious Google Summer of Code.

The Mentors, engaged in handling the industry-oriented open-source technologies, play a crucial role in guiding the participants throughout the whole program. Their expertise and support are instrumental in ensuring the success of the projects.

Organizations, on the other hand, provide the framework and real-world context for participants to apply their skills, fostering a collaborative and professional environment.

The participation is open for all tech-savvy students from the University degree coursework from different institutions.

Save the date: **27th January 2024, Saturday, 07:00 PM onwards.**
